MESSAGE

“A good teacher ignites hope, imagination and instils a sense of love for learning”

I am very glad to note that the Telangana State Board of Intermediate Education is bringing out the ‘Academic organizer’ for the academic year 2017-18. Educational Institutions play an important role in moulding the personality of student’s right from the childhood. The education imparted at intermediate is of specific significance as students are at an entrance of their career and ready to choose their choice.

Every year lakhs of students of Telangana State peruse intermediate successfully and secure their admission into the most prestigious institutions of Higher Education in India and abroad. Intermediate education is the turning point in one’s life. Every student should be guided properly at this turning point in order to have a bright future.

The Telangana State Board of Intermediate Education has been publishing Academic Organizer since its inception to facilitate the Students, Lecturers, Principals and the Managements of Intermediate Institutions to know the Principles, procedures of the TSBIE and guide them in proper direction.

The Telangana State Government is providing free education and free textbooks to all the students of Government Junior Colleges. The Endeavour of the Telangana State Board of Intermediate Education officials for bringing out the Academic Organizer has to be highly appreciated. I also take this opportunity to convey my best wishes to all the students and staff of the Junior Colleges in the Telangana State. I am confident that this ‘Academic Organizer’ definitely guides every stakeholder in the field of Intermediate Education.

(Dr. A. Ashok I.A.S)
